# AwareNet
# Tablet Set Up

Apple iPad required.

1. Using the *App Store* app, install the *Google Chrome* browser app.
2. Using the *Settings* app, configure the *Chrome* app settings:
    a. Location
        i. Allow Location Access: While Using the App
        ii. Precise Location: Enabled
    b. Microphone: Enabled
    c. Siri & Search: N/A
    d. Background App Refresh: Enabled
    e. Cellular Data: Enabled
    f. Default Browser App: Chrome
    g. Allow Cross-Website Tracking: Enabled
3. Using the *Chrome* app:
    a. Ensure Chrome has no other "profiles" or create a new profile for the userid (account) designated for your use.
    b. Enter the website: review.awarenet.us
    c. Follow the prompts to *Sign in with Google* using the designated userid (account) and password for AwareNet.
    d. After successful sign in, create a bookmark in Chrome for AwareNet (hint, create a bookmark for the page that displays after a successful AwareNet sign in and then edit the bookmark to set the URL to "review.awarenet.us").
4. Optional – Using the *Shortcuts* app:
    a. Create a new Shortcut named "AwareNet"
    b. Add an "Apps" action for Chrome to *Open URLs in Chrome*
    c. Set the URL for the action to "review.awarenet.us".
    d. Using the Share button, add the shortcut to the Home Screen.
        i. Select the color red.
        ii. Select the Maps icon of a map pin.
